EDT455 Final Project Proposal

1. Name:

2. Title of Project:

3. Audience & Purpose of Project:

Who are your potential visitors? What is the overall aim of the web pages?

4. Browser platform and compatibility:

Check those that apply

☐ PC
☐ Macintosh

☐ Version 3 browsers and below
☐ Version 4 browsers and above
☐ Netscape browsers only
☐ MSIE browsers only
☐ Other(s): Please specify _____

5. Content:

What will visitors expect to see at the website? (In other words, elaborate on the flowchart.)

6. Layout, Color Scheme and Navigation:

Do your pages use frames/tables/layers? Is there a consistent layout? Describe it.
What colors do you intend to use for the background/headers/body text, and why?
Where will the navigation bar or menu appear? How do you intend to make the navigation logical/intuitive?

7. Feedback mechanism(s):

☐ E-mail
☐ E-mail form
☐ Guestbook
☐ Other(s): Please specify _____

8. Other features

What external links will you provide, and why?
Are there other non-HTML elements (e.g. Java applets, Flash, movies, VRML)? How will these elements enhance your pages?

9. Flowchart

Please attach a flowchart. You may draw it by hand or use any program to illustrate the overall concept of your project. Refer to the online checklist on what to include.

10. Storyboard (optional)

Provide hand-drawn representations or screenshots of a typical page. If there is more than one layout, provide an example of each. Refer to the online checklist on what to include.
